BUSINESS INCREASING.

American Censorship Work in Occupied Area of Germany Grows.

Coblenz, March 17.—Business in the German postal, telegraph and telephone services under American censorship in the occupied area has increased to such an extent that recently 35 additional soldiers were added to the force of censors. This gives Coblenz about 60 and Treves 40 in the censorship department. These two cities handle virtually all the mail, telegrams and telephone calls from the occupied zone to other parts of Germany.

The long distance telephone calls are confined chiefly to business. Personal calls, excepting where it is shown that they are important, as in cases of sick-

ness, are not permitted. All telephone conversations are recorded, a German-speaking soldier taking notes as he believes will be of interest to the intelligence section of the army of which the censorship is a part.

Letters, telephone calls and telegrams from one point to another in the American area are not censored.

S., who has been seriously ill with typhoid fever, is much improved. The Anconia is the third steamer upon which Seaman Parker has sailed, the first two being the Missouri and the Arkansas, victims of submarine warfare.

An acute shortage of flat cars for Millstone hill yesterday threatened dire results for the manufacturing industry here in the city, and while the railroad authorities believe that relief is at hand, a number of men have been idle as a result of the car situation. Yesterday and to-day platform cars of the type most needed were rushed to the Barre and Chelsea railroad and shipments from the hill took on an appearance nearer normal this afternoon.

NEW MOTOR AMBULANCE

Has Been Added to the Equipment of A. W. Badger & Co.

One of the latest and most up-to-date additions to the ambulance and undertaking business in this city is a modern combination hearse and casket auto ambulance purchased by A. W. Badger for A. W. Badger & Co. The chassis is a Dodge Brothers' business model with a wheelbase of 144 inches, purchased through the Perry Automobile Co. The body, of handsome design, is manufactured by the Babcock company of Watertown, N. Y., who specialize in such and has many desirable features.

The front of the machine is of the vestibule type, enclosing the driver from weather elements. Fore doors with paneled windows, drop sash, open on either side. The entire car is finished in a beautiful silver gray, glossy surface. The side panels show sunbursts on the inside of a color corresponding to the remainder of the finish.

The inside, of mahogany, is very spacious and with a cot of improved style which the owner uses, there is ample room for at least two attendants to occupy two leather upholstered seats, part of the equipment. A dome light is used to illuminate the interior, while two attractive side lights add to the general appearance of the exterior. A flower rack is also part of the extra that go with the machine. The machine is very desirable in stormy weather, in that patients and attendants are all enclosed, with plenty of chance of providing air by means of sash windows on the rear doors. Mr. Badger has equipped the car with oversize tires, and with extra large springs and with the long wheelbase believes he has a machine which will ride with a minimum of jolting or vibration. He has already responded to several out-of-town calls and it is for this line of business, mainly, that he decided on the purchase. So it will not only be a benefit to this community but to the surrounding territory. It is a valuable acquisition to care for the steadily increasing patronage of its owner. A garage at the rear of the store houses the ambulance and the ambulance will be ready for emergency calls on instant notice.

PASSED SUFFRAGE BILL OVER CLEMENT'S VETO BY BARE TWO-THIRDS

(Continued from first page.)

House, thus establishing a precedent. Whereupon, Mr. Dunham withdrew his first motion and substituted a new one separately, which was adopted by a vote of 83 to 66.

The House last night passed the following: H. 276, providing for majority vote in electing town officers by ballot (an amendment offered by Mr. O'Rourke of Derby, substituting the words "legal voters" for "inhabitants" was voted down); H. 279, providing for bond of taxpayer appealing from board of civil authority; H. 280, relating to record of conveyance of interest in mines and quarries; H. 282, relating to the state flag.

The rules were suspended and S. 19 was reconsidered and amended to correct an error.

On motion of Mr. Buxton, H. 278, relating to the passage of motor cars over bridges, was amended to define non-residents and after to provide for signs on such bridges, visible for 100 feet, stating the legal speed thereon.

There was some inquiry concerning H. 286, providing for support of patients in Brattleboro retreat, as the bill is retroactive, giving the board of control authority to settle for the past year. Messrs. Witters of St. Johnsbury and Tracy of Johnsonville interposed the committee, and Mr. Cadworth of Londonderry explained that there was no contract with the retreat, and that the trustees had pledged their personal credit in order to keep state patients at the old price, each one representing a distinct loss. The bill was then ordered to a third reading.

In the Senate last week, a bill (S. 94) to repeal the dog bill which became law 10 days ago, was introduced by Senator Vilas, and S. 93 was introduced from the committee on corporations and franchises. It provides for extending the time in which railroads can be commenced or finished. The Senate passed the following:
